

## **GeoPRISMS TEI Field Trip Saturday, February 11, 2017**

---

Departure: 9:00 am in front of the hotel main entrance.

Return: ~4:30 pm to the hotel

If the conditions allow we will go to Kasha Katuwe (Tent Rocks). If there is too much snow, we will go to an alternative location at lower elevation. The elevation at Kasha Katuwe ranges from 5,500 to 6,700 feet and we will hike to 6,700. It is a nice hike with a great view from the top. We will be in a national monument, so no hammering on rocks or collecting of materials. It can be cold and windy and it can also be very sunny so be prepared for changing weather conditions and wear some layers.

- 1) Fill out your field trip waiver form and bring it to the field trip
- 2) To Bring
  - Food: lunch boxes will be provided prior to departure. Pick one up before you get on the bus.
  - Water: 2 liters of water. Bring your water bottles and fill them before departure or buy water before.
  - Hiking boots and socks. Light hiking boots preferably with ankle protection
  - Backpack to carry your belongings
  - Sunscreen
  - Sun-hat and warm hat
  - Warm jacket
