

GeoPRISMS Synthesis & Integration TEI

San Antonio, February 26-March 1, 2019

Breakout Instructions:

Participants are divided into four equal-size groups. Check the spreadsheet (emailed) for your group.

Each group has a discussion leader and a scribe (already assigned).

Rooms:

- (1) Ballroom
- (2) Cavalier
- (3) Patio
- (4) Renaissance

Charge for the breakout session:

- Quick poll: If you could have a workshop (or “hash-out”) to synthesize one topic/theme, what would it be?
- What are the rationale and motivations for bringing a focused community together for some of these topics? How are these informed by GeoPRISMS data sets?
- What activities, aside from (or in tandem with) workshops, could we do to enhance interpretations of existing data?
- What aspects of the GeoPRISMS program are essential to preserve? What structures do we need within funding agencies to keep this community from becoming dispersed?
- **Anything else that you think is important**
